Solarex Istanbul Fair, which was held in the halls No. 2-3-4-5-6-7-8 at Istanbul Fair Center between 04-06 April 2024 was a success.

Solarex Istanbul International Solar Energy and Technologies Fair, Turkey's first and only specialized fair in its field, has successfully completed the organization. It was an organization attended by a total of 502 participants, of which 377 were domestic and 125 were foreign, and a total of 43,758 visitors followed by professionals.

The desire of solar energy producers operating in Turkey to increase their quality, to become a brand, to reach new markets, and the success of Voli Fair in specific fairs, have played a major role in the industry's adoption of the fair and the fair was held successfully.

Turkey continues to develop worldwide with its rapidly increasing population, advantageous geography, and the contribution of advantageous geography to exports. One of the most important sectors that has taken action in our country is undoubtedly the solar energy sector. The developments, innovations and exemplary solidarity of the solar energy sector in recent years have been the factors that have positively affected the solar energy sector.

Producers, consumers, buyers, practitioners, domestic and international representatives and all members of the sector came together at the Solar Energy Fair.

The study report and statistical results related to the fair in attachment is respectfully submitted for your information.

Best regards,

Voli Fuar Hizmetleri A.Ş.
